Professional Summary

UI/UX Developer and Frontend Specialist with strong expertise in HTML5, CSS3, JavaScript (ES6+), and Tailwind CSS. Experienced in building responsive, user-centric web interfaces, AI-powered SaaS dashboards, marketing websites, and high-converting website banner designs including hero sections and promotional layouts. Skilled in converting Figma designs into production-ready, scalable code while focusing on performance, accessibility, and clean component-based architecture.

Key Skills

Technical Skills

- HTML5, CSS3, JavaScript (ES6+), Tailwind CSS
- Responsive & Mobile-First Design
- Website Banner Design & Development (Hero Sections, Promotional Banners, Landing Page Headers)
- Cross-Browser Compatibility & Performance Optimization
- Component-Based CSS Architecture
- Figma, Adobe Photoshop, Adobe XD
- Git & Version Control
- Basic Accessibility (a11y) & WCAG Awareness
- Design-to-Code Handoff & UI Documentation

Soft Skills

- Problem Solving
- Attention to Detail
- Collaboration & Communication
- Active Listening
- Adaptability
- Time Management

Professional Experience

HTML/CSS Developer — Adlift India | Present

- Collaborated with product designers and engineers to develop AI-powered SaaS dashboards and internal tools (including tesseract.adlift.com).

- Translated Figma designs into modular, production-ready HTML, Tailwind CSS, and vanilla JavaScript components.
- Designed and developed high-converting website banners, promotional sections, and hero layouts for marketing campaigns.
- Built case-study and marketing landing pages to support branding and lead generation initiatives.
- Improved UI maintainability by creating reusable front-end component patterns and documentation.
- Ensured responsive performance and cross-browser compatibility across all projects.

Web Designer — Korra | Feb 2024 – Aug 2024

- Designed and developed responsive websites focused on usability and conversion (notably 'Dream Holiday Solutions').
- Created visually engaging banner sections and landing page headers to enhance user engagement.
- Worked closely with back-end teams to ensure seamless integration and consistent UX across devices.

Front-End Designer — Eleve Media | 2024

- Developed web and mobile application UI for product sites including 'CreatorTag'.
- Performed cross-browser testing, debugging, and performance tuning.
- Enhanced UI responsiveness and visual consistency across platforms.

Creative Designer — Dentsu Creative | 2023

- Produced print and digital designs aligned with brand guidelines across campaigns.
- Designed digital banners and promotional creatives for online marketing campaigns.
- Maintained visual consistency under tight deadlines.

Web Developer — Razorpod | 2022

- Revamped client websites to improve UI responsiveness and user experience (SATO project).
- Optimized layouts for multiple devices and improved overall front-end performance.
- Developed structured and scalable front-end code for long-term maintainability.

Site Engineer — Government of Jammu & Kashmir | 2019

- Inspected construction sites in coordination with surveyors and managed timelines and costs.
- Developed reporting practices to track project progress and compliance.

Selected Projects

- Tesseract (www.tesseract.adlift.com) — Front-end development for AI SaaS dashboard and admin tools.
- Dream Holiday Solutions — Responsive travel website design and implementation.
- CreatorTag — Product website UI development and cross-platform QA.
- SATO — UI performance and responsiveness improvements for client web project.

Education

Bachelor of Technology (B.Tech) in Civil Engineering — Uttarakhand Technical University | 2019

Certifications & Courses

- Advanced Front-End Developer Course — Coding Ninjas | 2023
- Web Design (HTML/CSS) — Udemy | 2022

Key Achievements

- Developed SaaS UI features contributing to improved internal workflows.
- Delivered fully responsive websites improving mobile accessibility and engagement.
- Created reusable UI components reducing development time across projects.
